Made in **PORDAMSA**

En Pordamsa diseñamos y creamos experiencias que realzan la belleza de lo artesanal. La porcelana no es solo un material, es una expresión de arte que cobra vida a través de las manos de nuestros artesanos. Creatividad y destreza se fusionan para dar forma a colecciones singulares.

Cada pieza, creada con esmero y dedicación, se convierte en un complemento imprescindible que resalta lo mejor de la cocina, ofreciendo un equilibrio perfecto entre estética, funcionalidad y tradición.

At Pordamsa we design and create experiences that enhance the beauty of craftsmanship. Porcelain is not just a material, it is an expression of art that comes to life through the hands of our artisans. Creativity and dexterity merge to form unique collections.

Each piece, created with care and dedication, becomes an essential complement that highlights the best of the kitchen, offering a perfect balance between aesthetics, functionality and tradition.

Chez Pordamsa, nous concevons et créons des expériences qui mettent en valeur la beauté de l'artisanat. La porcelaine n'est pas seulement un matériau, c'est une expression artistique qui prend vie entre les mains de nos artisans. La créativité et l'habileté fusionnent pour créer des collections uniques.

Chaque pièce, créée avec soin et dévouement, devient un accessoire essentiel qui met en valeur la cuisine, offrant un équilibre parfait entre esthétique, fonctionnalité et tradition.

50 years, a new chapter

Celebrar 50 años de historia es un hito que refleja la permanencia en el tiempo como consecuencia de la capacidad de evolución y adaptación. A lo largo de estas cinco décadas, hemos sido testigos de un crecimiento constante, impulsado por nuestra entrega al diseño, la calidad y la innovación. Cada pieza que creamos lleva consigo el legado de nuestra tradición y la pasión de generaciones de artesanos que han perfeccionado su oficio.

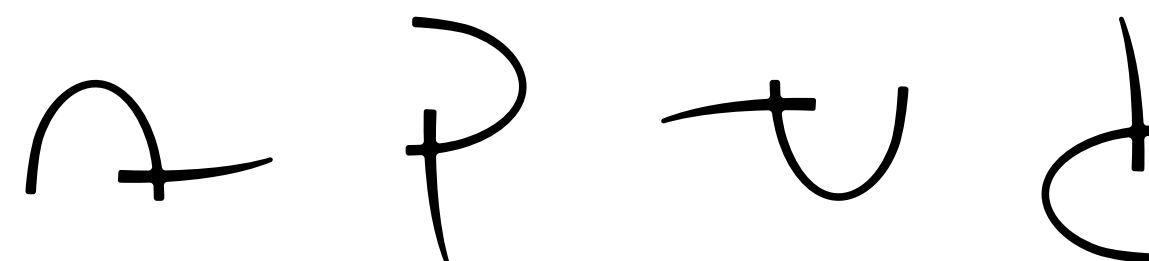

Para conmemorar este medio siglo, hemos decidido dar un paso hacia el futuro con un restyling de nuestro logotipo, un cambio visual que simboliza nuestra evolución y el compromiso continuo con la excelencia. Este nuevo diseño ofrece un isotipo con múltiples visiones e interpretaciones. Con rasgos reminiscentes japoneses, un solo trazo que nos recuerda a un recipiente, a la P de porcelana o al Montgrí de l'Empordà. Connotaciones que son reflejo de los valores y raíces que constituyen Pordamsa.

Celebrating 50 years of history is a milestone that reflects the permanence over time as a result of the capacity for evolution and adaptation. Throughout these five decades, we have witnessed constant growth, driven by our dedication to design, quality and innovation. Each piece we create carries with it the legacy of our tradition and the passion of generations of artisans who have perfected their craft.

To commemorate this half century, we have decided to take a step into the future with a restyling of our logo, a visual change that symbolizes our evolution and ongoing commitment to excellence. This new design offers an isotype with multiple visions and interpretations. With Japanese-reminiscent features, a single stroke that reminds us of a container, the P of porcelain or the Montgrí of l'Empordà. Connotations that reflect the values and roots that make up Pordamsa.

Célébrer 50 ans d'histoire est une étape importante qui reflète la pérennité dans le temps grâce à la capacité d'évoluer et de s'adapter. Tout au long de ces cinq décennies, nous avons connu une croissance constante, motivée par notre engagement en faveur du design, de la qualité et de l'innovation. Chaque pièce que nous créons porte en elle l'héritage de notre tradition et la passion de générations d'artisans qui ont perfectionné leur métier.

Pour commémorer ce demi-siècle, nous avons décidé de faire un pas vers l'avenir en redessinant notre logo, un changement visuel qui symbolise notre évolution et notre engagement continu en faveur de l'excellence. Ce nouveau design propose un isotype aux multiples visions et interprétations. Avec des caractéristiques qui rappellent le japonais, un seul trait qui évoque un récipient, la porcelaine P ou le Montgrí de l'Empordà. Des connotations qui reflètent les valeurs et les racines qui constituent Pordamsa.

duna

Ritmos orgánicos

Duna es una colección de diseño orgánico y singular inspirada en las formas cálidas y sinuosas que crean las dunas en el desierto. Modelada a mano en porcelana blanca, es una colección ideal para potenciar cualquier creación gastronómica y muy indicada para el uso de salsas, gracias a su capacidad. Con un acabado estético y alta resistencia, esta colección ofrece multitud de posibilidades de emplatar. Colección disponible también en acabado mate.

Rythmes organiques

Duna est une collection au design organique et unique inspirée par les formes chaudes et sinueuses des dunes du désert. Modelée à la main en porcelaine blanche, c'est une collection idéale pour rehausser toute création gastronomique et très adaptée à l'utilisation de sauces, grâce à sa capacité. D'une finition esthétique et d'une grande résistance, cette collection offre une multitude de possibilités pour le dressage. Collection également disponible en finition mate.

Organic rhythms

Duna is a collection of organic and unique design inspired by the warm and sinuous shapes created by the dunes in the desert. Hand-modelled in white porcelain, it is a suitable collection for any gastronomic creation and also for sauces, thanks to its capacity. With an aesthetic design and high resistance, this collection offers a multitude of plating possibilities. Collection also available in matte finish.

nuages

Blanca sutileza

Las formas blandas de las nubes, junto con el color blanco de nuestra porcelana, se unen creando la colección Nuages. Todas sus piezas disponen de una leve inclinación que conducirá los líquidos hacia el centro.

La nature subtil du blanc

Les formes molles des nuages et la couleur pure de notre porcelaine s'unissent pour créer la collection Nuages. Toutes ces pièces sont légèrement inclinées, ce qui permet de conduire les liquides vers le centre.

The subtlety of white

The soft shapes of clouds and the pure white colour of our porcelain join to create the collection Nuages. All the pieces have a slight slope that will draw liquids to the centre.

arbre

El alma del árbol

A través de esta colección, queremos trasladar la magia del bosque a la mesa. Los anillos de sus árboles se mimetizan en cada una de sus piezas dando forma a una colección orgánica.

L'âme de l'arbre

À travers cette collection, nous souhaitons déplacer la magie du bois à table. Les anneaux de ses arbres font du mimétisme dans chacune de ces pièces en formant une collection organique.

The soul of the tree

This collection brings the magic of the forest to the table. Tree rings are imitated in each piece producing an organic collection which allows boundless presentations.

Porcelana

Porcelain

Elegimos el mejor caolín, cuarzo y feldespato, las materias primeras con las que se fabrica la porcelana, aportando un color blanco puro.

La fabricación totalmente manual nos da la posibilidad de asegurar el máximo cuidado de hasta el más mínimo detalle.

Una vez seca, la porcelana se pule cuidadosamente a mano para obtener el mejor resultado después de la cocción.

La porcelana de PORDAMSA se cuece a 1400°C / 2552°F. El resultado es un producto duradero, más resistente al desportillado y de blanco puro.

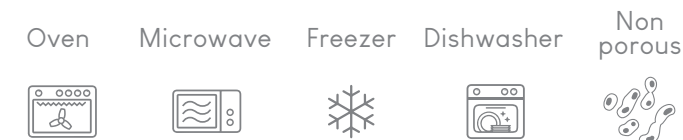

We choose the best kaolin, quartz and feldspar, the raw materials with which porcelain is made, providing a pure white color.

Entirely handmade manufacturing gives us the possibility of ensuring maximum care of even the smallest detail.

Once dry, the porcelain is carefully polished by hand to obtain the best result after firing.

PORDAMSA porcelain is fired at 1400°C/ 2552°F. The result is a durable, more chip-resistant and pure white product.

SILKY MATTE

silky touch

Muy conscientes de ir más allá de crear un recipiente para servir un alimento, queremos que el plato transmita una emoción. Y el sentido del tacto no podía faltar.

PORDAMSA ha desarrollado un sistema de matizado especial que aporta un tacto extremadamente suave, a la vez que protege la pieza para el uso alimentario.

Con un acabado no poroso, tiene la misma protección que las piezas con esmalte brillante, pero con un acabado sedoso.

Nunca un plato había sido tan suave.

Very conscious of going beyond creating a container to serve food, we want the plate to convey an emotion. And the sense of touch could not be missing.

PORDAMSA has developed a special matting system that provides an extremely soft touch, while protecting the piece for food use.

With a non-porous finish, it has the same protection as pieces with glossy enamel, but with a silky finish.

Never has a dish been so soft.

PORDAMSA

and sustainability

Para nosotros, la sostenibilidad es querer hacerlo bien. Por eso, la reutilización de los elementos y materias utilizados en nuestra fabricación es fundamental para contribuir a proteger el medio ambiente.

Además, uno de los aspectos fundamentales para lograr la sostenibilidad es la generación de nuestra propia energía de manera eficiente y consciente. De manera autosuficiente somos capaces de llevar a cabo nuestra producción, evitando la práctica de técnicas que puedan afectar negativamente a nuestro entorno.

For us, sustainability is wanting to do things well. Therefore, the reuse of the elements and materials used in our manufacturing is essential to help protect the environment.

Furthermore, one of the fundamental aspects of achieving sustainability is the generation of our own energy in an efficient and conscious manner. We are able to carry out our production in a self-sufficient manner, avoiding the practice of techniques that could negatively affect our environment.

Madera

Wood

Nuestros platos y soportes de madera, están fabricados de manera artesanal por manos expertas. Desde la selección cuidadosa de las maderas, pasando por los procesos de cortes y limados, hasta los barnices y grabados.

Con carácter e identidad, no existen dos piezas iguales. Es ahí donde reside el valor de cada uno de nuestros productos. Nuestro objetivo es mantener la identidad de cada madera para obtener piezas únicas e inigualables.

En Pordamsa además, aplicamos a nuestros productos un barniz alimentario formulado para proteger las maderas que están en contacto directo con alimentos.

Our wooden plates and presentations are handcrafted by expert hands. From the careful selection of wood, through the cutting and filing processes, to varnishes and engravings.

With character and identity, no two pieces are the same. This is where the value of each of our products lies. Our goal is to maintain the identity of each wood to obtain unique and unmatched pieces.

At Pordamsa, we also apply a food-grade varnish to our products, formulated to protect wood that is in direct contact with food.

Acero inoxidable

con PVD

Stainless steel with PVD

El acero inoxidable con el que trabajamos es el categorizado como 18/10. Su composición proporciona a nuestros productos una excelente resistencia a la corrosión, esto lo hace adecuado para el contacto directo con alimentos.

Algunos de nuestros productos están sometidos a la tecnología de revestimiento decorativo por PVD (Deposición Física de Vapor). Se someten a un proceso que permite que el color impregne en la microporosidad del acero inoxidable, otorgando a los productos un acabado único y personal. El proceso PVD, además, tiene como finalidad aumentar la vida útil del color aplicado.

The stainless steel we work with is categorized as 18/10. Its composition provides our products with excellent corrosion resistance, this makes it suitable for direct contact with food.

Some of our products are subjected to decorative coating technology by PVD (Physical Vapor Deposition). They undergo a process that allows the color to permeate the microporosity of the stainless steel, giving the products a unique and personal finish. The PVD process also increases the lifespan of the applied color.

Borosilicato

Borosilicate

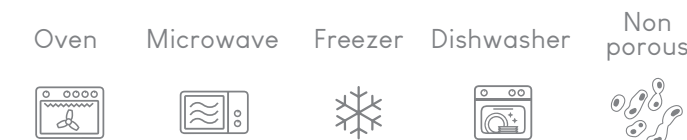

El borosilicato es un tipo de vidrio al que se le añade un porcentaje de boro para maximizar su resistencia. Su particularidad más relevante es el proceso de templado, que consiste en un enfriamiento inmediato del material para reforzar sus propiedades de dureza.

Su composición y el proceso de templado al que es sometido, consiguen que el borosilicato sea un tipo de vidrio extra resistente a golpes y a cambios térmicos.

Borosilicate is a type of glass to which a percentage of boron is added to maximize its resistance. Its most relevant feature is the tempering process, which consists of immediate cooling of the material to reinforce its hardness properties.

Its composition and the tempering process to which it is subjected make borosilicate a type of glass that is extra resistant to shocks and thermal changes.
